Visit w3schools and go to the HTML Tutorial: <https://my-learning.w3schools.com/tutorial/html>

Introduction and Basics Lessons 1.1 - 1.7

Formatting and Style Lessons 2.1-2.6, 2.8 - 2.22

Links Lessons 4.1 - 4.3

Forms Lessons 10.1 - 10.6

Visit w3schools and go to the JavaScript Tutorial: <https://my-learning.w3schools.com/tutorial/js>

Introduction Lessons 1.1 - 1.7

Variables Lessons 2.1 - 2.4

HTML DOM Lessons 22.1 - 22.14

Visit w3schools and go to the CSS Tutorial: <https://my-learning.w3schools.com/tutorial/css>

Introduction Lessons 1.1 - 1.6

Links Lesson 11.1

Lists Lesson 12.1

Selectors 16.1 - 16.5

Guide:

Make sure you're in the main branch locally and ``git pull origin main`` any pending changes

Make a new branch per the recommended branch name below (`git checkout -b ...`)

Fill in the items in the worksheet below (save as often as necessary)

Once finished, export the worksheet

Add the output file to any location of your choice in your repository folder

Check that git sees it via ``git status``

If everything is good, continue to submit

Track the file(s) via ``git add``

Commit the changes via ``git commit`` (don't forget the commit message)

Push the changes to GitHub via ``git push`` (don't forget to refer to the proper branch)

Create a pull request from the homework related branch to main (i.e., `main <- "homework branch"`)

Open and complete the merge of the pull request (it should turn purple)

Locally checkout main and pull the latest changes (to prepare for future work)

Take the same output file and upload it to Canvas

*This step is new since GitHub renders the PDF as an image the links aren't clickable so this method works better

*Remember, the github process of these files are encouragement for your tracking of your progress

Branch name: M3-HTML-JS-CSS-Readings

Tasks: 12 Points: 10.00

HTML Readings (2.5 pts.)

Task #1 - Points: 1

Text: Reflect on the topics and refer to the checklist of this task

Checklist

*The checkboxes are for your own tracking

#	Points	Details
<input type="checkbox"/> #1	1	Mention specifics of what concepts/topics were totally new to you.
<input type="checkbox"/> #2	1	Mention specifics of what concepts/topics you already knew.
<input type="checkbox"/> #3	1	Mention specifics of any topics you still don't feel confident about. If everything makes sense so far you can mention so.
<input type="checkbox"/> #4	1	At least a few reasonable sentences.

Response:

Im pretty familiar with most of the information in the readings, but the info that was new to me were the HTML DOM lessons, the CSS Selectors lessons, and the HTML Link Bookmarks. I feel pretty okay with everything so far, it's just im not super confident when it comes to actually getting into the coding/nitty gritty parts of it. I just become more stumped when I actually get into vscode and do the coding (hopefully this makes sense).
